NEW EP RELEASE - 'Fanfare For Love'

Australia's 'Queen of Hearts' Coby Grant, has jumped leaps and bounds since her debut studio release, *'Coby Grant is in Full Colour'*. Renowned for her sweet, soaring vocals and catchy acoustic / pop style, Coby Grant gets set to launch her highly anticipated follow up EP, *'Fanfare For Love'*.

This latest offering recorded in the states, sees Grant take on a new musical direction alongside producer Anthony J Resta (Collective Soul, Elton John, Shawn Mullins, Duran Duran). With the success of her debut EP and 'Heartbeat' video clip (featured on Rage), as well as a plethora of independently managed, sold out shows across the country, it didn't take too long for this savvy songstress to attract the right attention. Coby Grant went on to sign with Premier Artists, catapulting her on the touring circuit, supporting artists such as Newton Faulkner, Lisa Mitchell and Toni Childs.

The journey continues at an increasing pace for this shining star, described as a 'carefree drifter, and focused tactician, all rolled into one' and celebrated for her positive and revealing outlook, which permeates through her songwriting. Don't miss the launch of her latest EP, *'Fanfare For Love'*, officially released on February 25th 2010, followed by a national tour.
